Re: CS Modifiers

Date: December 14, 2007

The addition of modifiers to the CSS codes, effective December 1, has made it necessary for us to change the codes in our authorization system to enable you to be reimbursed. If you billed after December 1 with the old codes you will receive a denial. As soon as possible please submit a new authorization request effective December 1, 2007 reflecting the same level of service you are currently providing. On this request you must indicate the number units you plan to use for CSS Professional and CSS Paraprofessional. Request a 90 day authorization. Units should be the same as your original request only divided into the two categories. Use the codes listed below.

CSS Adult Professional	H0036:HB:U3
CSS Adult Paraprofessional	H0036:HB:U4
CSS Child Professional	H0036:HA:U3
CSS Child Paraprofessional	H0036:HA:U4
CSS Group Professional	H0036:HQ:U3
CSS Group Paraprofessional	H0036:HQ:U4

When the request has been authorized, submit or resubmit billing for December 1 forward using the new codes.

If you have questions contact me at 910-251-6553 or pagec@secmh.org.
